### Library Construction Update

We want to keep our community informed on the progress of our exciting library expansion! While we've made great strides, there's been a slight delay due to waiting on the final approval of state-required plans. This has temporarily slowed the framing process for the addition, but rest assured, this delay is in no way the fault of Capelle Bro Construction.

Despite the hold-up, Capelle Bro Construction has been working diligently on the inside of the building, making significant progress in areas that can be completed while we wait for the green light to proceed with enclosing the addition. Our team is eager to continue with the next phase of construction and can't wait to bring the full vision to life.

Thank you for your patience as we navigate these necessary steps. We'll continue to provide updates and look forward to sharing more exciting news with you soon!
